## JOINT PRESS RELEASE

### **Consumer rights: business organisations call for European Parliament plenary to preserve full harmonisation**

In view of the upcoming plenary vote on the Consumer Rights Directive, **BUSINESSEUROPE**, **EUROCHAMBRES** and **UEAPME** called on the European Parliament to focus efforts on full harmonisation and to refrain from adopting any minimum harmonisation provisions. In a joint letter to Members of the European Parliament, the three business organisations expressed their concerns on a number of changes introduced by the Parliament's Internal Market & Consumer Protection and Legal Affairs Committees. These modifications risk jeopardising the original intentions of the European Commission, warned the three.

Full harmonisation, as proposed by the Commission, is the most effective way to address the legal uncertainty that currently prevails in relation to cross-border business-consumer transactions.

Business organisations also backed the deletion of chapters 4 (sales contracts and remedies) and 5 (unfair contractual terms) from the directive, as suggested by the Council, since these chapters now contradict the initial purpose of reducing legal fragmentation in the internal market.

Moreover, they rejected the addition of information requirements for on-premises contracts and called for the exclusion of solicited visits for off-premises contracts from the scope of the text, which would create more burdens and costs for businesses and consumers than benefits.
