

Conference on
Public-Private Partnership Program
for Infrastructure Projects
in the Republic of the Philippines

Tuesday, 16 September 2014, 13h30-17h00

Paul-Henri Spaak II & III
1/F Sofitel Brussels Europe
Place Jourdan 1, 1040 Brussels

The Public-Private Partnership (PPP) Program is one of the key strategies for accelerating the infrastructure development agenda of the Republic of the Philippines. Since its launching, the PPP pipeline has continuously attracted local and foreign investors. To date, the pipeline has over fifty (50) projects with estimated investment requirements totaling close to US\$ 20 Billion (approx. EURO 14 Billion). This Conference provides an excellent opportunity for foreign companies to know more about these various infrastructure projects and how to participate in their implementation.
