EUROCHAMBRES General Assembly: quick decisions for a quick recovery!

On the occasion of the 9 June General Assembly, EUROCHAMBRES President, Christoph Leidl, expressed his support for the swift and ambitious response of the European Commission to the COVID-19 crisis and for the major recovery plan proposed on 27 May.

EUROCHAMBRES is pleased with the European Commission's proposal for a recovery plan and welcomes the fact that the EU is acting quickly. We now call on the Council to take concrete decisions on 17 June and to accelerate the process so that the crisis can soon be overcome and the budget is clear.

EUROCHAMBRES welcomes the solidarity among the members of the EU and is pleased that there is a compromise that will drive forward the single market, which is key to the recovery.

EUROCHAMBRES and the Chamber network are supporting European businesses to return swiftly to former levels of success and believe that hope and new energy will soon overcome anxiety.

Christoph Leidl,
President of EUROCHAMBRES
