

**EUROCHAMBRES SURVEY ON GREEN SKILLS
IN THE EUROPEAN LABOUR MARKET**

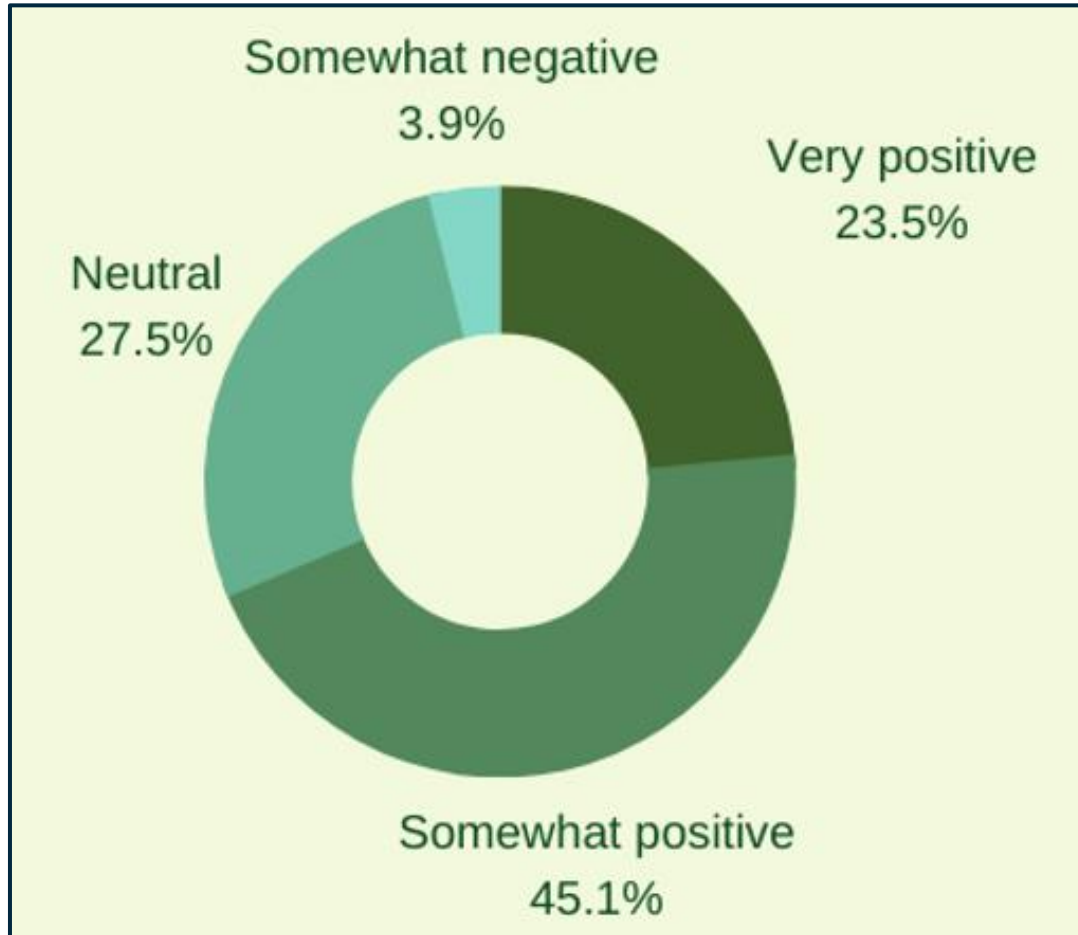

Eurochambres survey: green skills in the European labour market

- 51 national and regional chambers from 15 European countries provided their feedback on opportunities and challenges arising from the green transition in the European labour market.

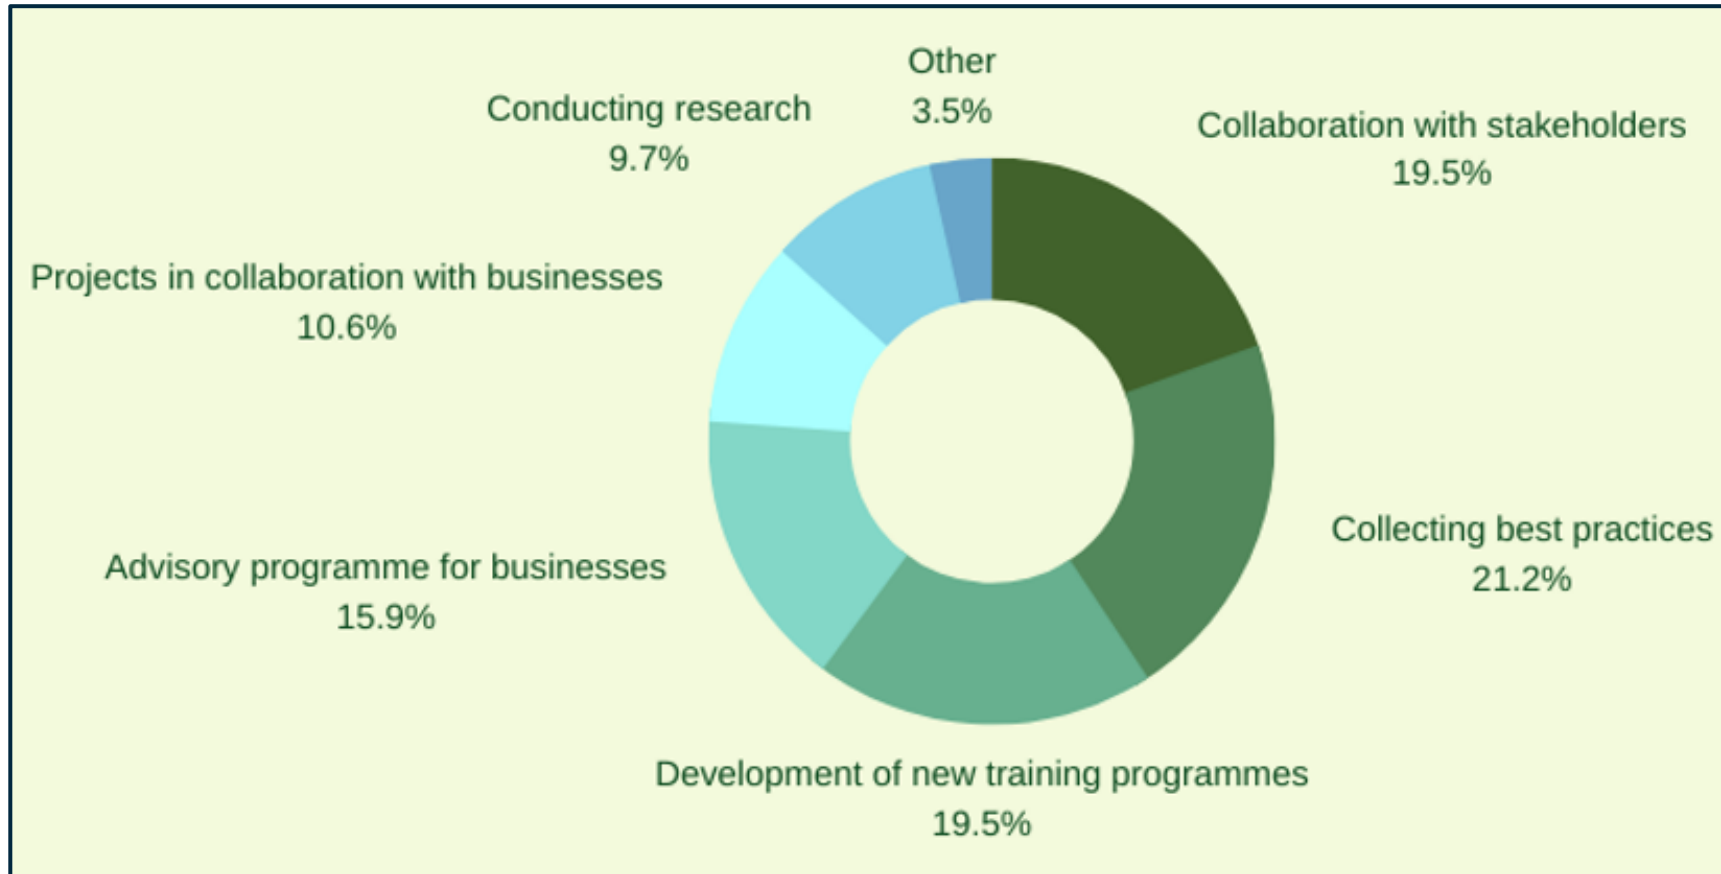

Green transition impact in the labour market

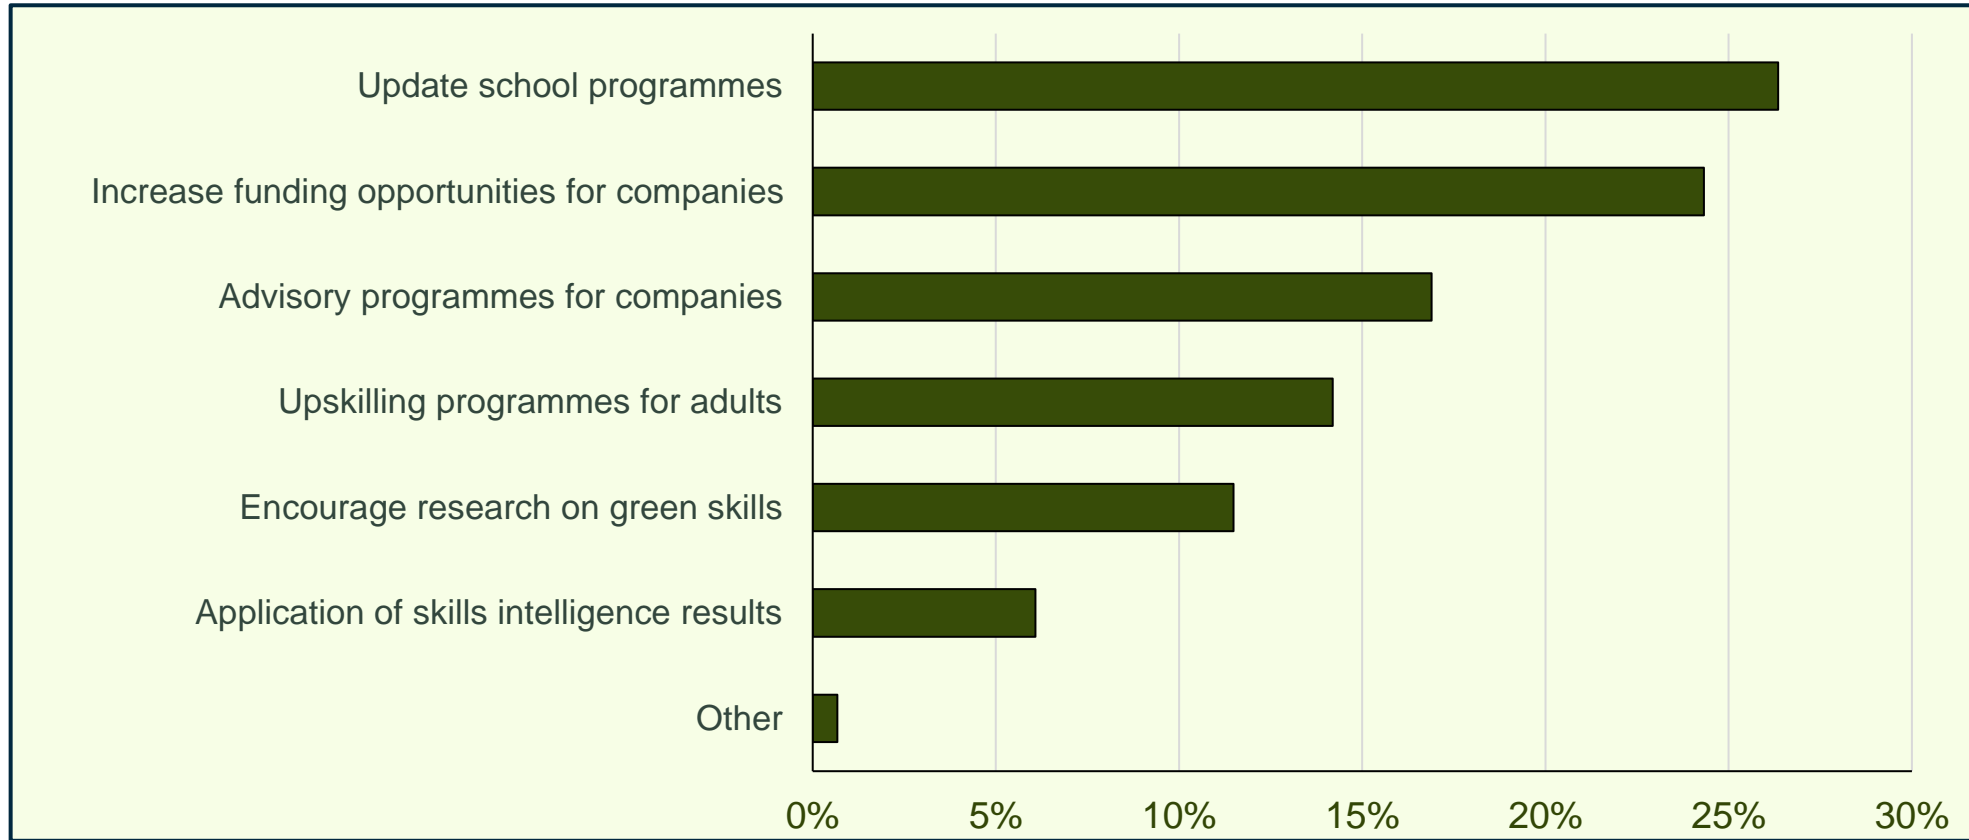

- Chambers highlighted an overall positive perception of the green transition impact on companies.
- The green transition should work towards narrowing the mismatches in the current reskilling ecosystems to ensure that skills are adapted to the company needs.

Initiatives promoted to assist businesses with the challenges of green jobs

How to support the acceleration of businesses efforts towards greener jobs?

Eurochambres next event:

Green skills in the eyes of European businesses

2 June 2022
10AM (CEST)
